## MULTIFAB

PT MULTI FABRINDO GEMILANG (Multifab), established by Mr. Arifin Panigoro in 1983, is one of the most prominent national companies in Indonesia providing ENGINEERING, PROCUREMENT, MANUFACTURING, and CONSTRUCTION (EPMC) products and services in the area of oil and gas industry, power generation, power transmission and distribution, along with new addition to our portfolio in Renewable Energy and MRO (maintenance, repair, and overhaul) of gas engines and driven equipment.

Multifab has maintained reputable and dependable products and services deliveries governed by proper implementation of notable operation and quality standards, such as Health and Safety Management system in compliance to ISO 9001, 14001, and 18001. This shall neither restrict nor limit our commitment to work with your or Customer requirement and our passion for improvement.

It has been our pleasure to support our Nation's development in the aforementioned fields through timely delivery of quality products and services in an integrated and professional manner; and together with you, we shall continue in the realization of our dream: building tomorrow's dream, today.

# FABRICATION

Pressure Vessel | Heat Exchanger | Boiler | Piping | Tankage | Steel Structure

---

Facilitated on a 30,000 square meter workshop situated in Cilegon, Banten, Multifab designs and manufacture a wide range of products and equipment such as static mechanical equipment and steel structure. With the factory conveniently located less than 8km to Ciwandan port, Banten, certainly delivers flexibility in overseas transport.

Our Fabrication division provides dependable services to design and build:

- Steel Structures, in the form of Substation's Gantry, Transmission Line Towers, Telecommunication Towers, Building Frames and Structure, Piperacks, Platforms, Girders and Overhead Cranes, to name a few.
- Welded Steel Tanks
- Pressure Parts, such as Drums, Vessels, Columns, Filters, Heat Exchangers, Furnace & boilers, Pipe Spools, Manifolds, and various piping works
- Integrated Packages comprising of all fabricated component in forms of Packaged, Skid-mounted, Containerized and Integrated package, design and built to ease delivery, field installation and commissioning.

All products and services have been proudly delivered on the following internationally recognized Codes and Standards:

- American Society of Mechanical Engineers (ASME) for Boilers, Pressure Piping, and Pressure Vessel
- The National Board of Boiler and Pressure Vessel Inspectors
- Quality Health Safety and Environment Certifications

We are ASME certified facility and operation equipped with U, U2, S, R, and PP Stamps for the design, manufacturing and construction of pressure vessels and boilers.

# TRANSMISSION & DISTRIBUTION

Substation | Transmission Line | Submarine Cable

For the last 20 years, our TRANSMISSION & DISTRIBUTION Division has been growing steadily and deliver quality services for one of our energy producing and operating Customer: PT. Perusahaan Listrik Negara (PLN), steadily supporting the critical energy demand of Indonesia.

Numerous High Voltage Power Transmissions and Substations have been designed, constructed and commissioned across the Nation as part of our contributions toward PLN's strategic growth plan. Direct participation on 10GW and 35 GW development programs enable us to do our part in developing and reinforcing our Country's energy stability, including the most recent prestigious backbone initiative: 500kV Northern Java line and 500kV Java Sumatra Interconnection Project.

It is with great pleasure and honor to have participated in the construction and growth of our Nation's Energy Stability initiative.

# RENEWABLE

Geothermal | Biogas | Biomass | ORC (Organic Rankine Cycle)

As we strive to continue our support to Indonesia's Government initiative in achieving its target on 23% of Renewable Energy development by 2025, we have successfully delivered our 2 x 800 kW Waste-to-Energy Biogas power plant project through the efficient utilization of cow manure.

In addition, our renewable participation has also extended to the successful design and construction of 3 X 110MW Geothermal Power Plant in Sarulla, North Sumatra, in cooperation with our partner.

Our commitment does not stop here, it is our commitment to maintain our effort on contributions through green energy projects; delivering result in reducing carbon foot print and environmental sustainability. We certainly look forward in cooperating with you in our next green energy projects.

# ROTATING EQUIPMENT

MRO Gas Engines & Driven Equipment

Driven by our intention to deliver cost improvement and sustainability toward Indonesia's oil and gas production, Multifab has recently initiate business expansion by cooperating with Turbine Service and Solution LLC (TS&S); a wholly-owned subsidiary of Mubadala Group.

Being in the forefront of maintenance, repair, and overhaul (MRO) service provider for over 45 years, TS&S together with Multifab intends to deliver timely and cost effective solutions for State Owned Enterprises, Production Sharing Contractors (PSC) and Power operators operating their facilities with the following equipment:

- Aero-derivative & Light Industrial Turbines: Avon, Trent, LM2500/LM6000, GG4/8, Centaur, etc
- Heavy Industrial Turbines: GE Frame 3 to 9, Generators, etc
- Power Turbines & Compressors: GEC/Siemens, Dresser Rand, Solar, etc

Supported with core competencies in Engineering, Procurement, Manufacturing and Constructions, shall enable Multifab to bring you and your company with tailored solutions to effectively suits your industrial and operational need supply-only upto turnkey projects.
